(For Proposed Local Authority Development)**

Project Title:	New Fáilte Ireland Facility for Water Based Activities and Refurbishment of Existing Public Toilet Facilities at Killiney DART Station/ Beach Car Park, Station Road, Killiney, Co. Dublin
-----------------------	---

Description of the Proposed Development:

Dún Laoghaire-Rathdown County Council is proposing to build a new Fáilte Ireland Facility for Water Based Activities and to refurbish existing public toilet facilities.

The new Fáilte Ireland Facility for Water Based Activities includes:

- 1 no. accessible Changing Places WC with shower;
- 1 no. wheelchair Accessible WC with shower;
- 2 no. FI WCs.
- 3 no. shower/changing cubicles.
- 1 no. cleaner's store.
- 3 no. external showers.
- Sheltered induction/ training/ social area.
- Lockers and seating.

The refurbished existing public toilet facilities include:

- 6 no. unisex WC cubicles.
- 1 no. unisex ambulant WC cubicle.
- 1 no. wheelchair accessible WC.

Also included are associated plant/ mechanical and electrical spaces, solar panels, sheltered pedestrian access route, landscaping, and reallocation of car parking spaces, associated utility connections and all associated site works at Killiney DART Station/ Beach Car Park, Station Road, Killiney, Co. Dublin.

Legislative Context:

- Habitats Directive (Council Directive 92/43/EEC on the Conservation of Natural Habitats and of Wild Fauna and Flora)
- Habitats and Birds Directives (Council Directive 2009/147/EC on the conservation of wild birds)
- European Communities (Birds and Natural Habitats) Regulations 2011 (as amended) (S.I. No. 477 of 2011)
- Planning and Development Act 2000 (as amended)
- Planning and Development Regulations, 2001 (as amended)
- Dún Laoghaire-Rathdown County Development Plan 2022-2028

AA Screening Report:

Dún Laoghaire-Rathdown County Council commissioned the Appropriate Assessment Screening Report (AASR) from consultants Traynor Environmental Ltd. The report was dated October 2026.

The AASR has been examined and evaluated by evaluated by Stephen McDermott, Senior Executive Planner, Planning Department and Miguel Sarabia, Acting Senior Planner, Planning Department, who are satisfied that the AASR fully considers the relevant Directives and legislation, and agree with the contents and conclusion set out in the AASR and the reasons therein.

This AASR has considered potential effects within the Zone(s) of Influence, resulting from the source pathway receptor model, which may arise during the construction and operational phases of the proposed new Fáilte Ireland Facility for Water Based Activities and Refurbishment of Existing Public Toilet Facilities at Killiney DART Station/ Beach Car Park, Station Road, Killiney, Co. Dublin.

Through an assessment of the potential sources and potential pathways for significant effects, the project characteristics have been evaluated by this report, taking account of the processes involved and the distance of separation from European sites, concluding that there is no likelihood of significant effects occurring to the Qualifying Interests, Special Conservation Interests or the Conservation Objectives, of any designated European site, as a result of the implementation of the proposed development.

Given the nature of the proposed development in the context of the local environment, plans and projects, the proposed development will not lead to any significant effects in combination with effects arising from any other plans or projects.

The AASR concludes that the proposed development is not foreseen to have any likelihood of significant effects on any European sites, alone or in combination with other plans or projects – and therefore any potential for significant effects on any European site resulting from the proposed development can be ruled out. This conclusion is made in view of the conservation objectives of the habitats or species for which these sites have been designated. Consequently, the proposed development does not need to be subject to Stage Two Appropriate Assessment, nor is a Natura Impact Statement required.

The main reasons for this are as follows:

- Having regard to the relevant directives and legislation.
- The scale and localised nature of the proposed development and the lack of direct impact pathways between the Site and European sites, it can be concluded that the Proposed Development will not result in any significant impacts either directly or indirectly on the conservation objectives or status of the listed European sites and will not result in the direct loss or disturbance of any Annex I habitats and/ or Annex II species for which the European sites are designated.
- That the Developments either alone, or in-combination with other plans, projects or land uses, have not had and will not have any direct or indirect significant effects on any European sites.

Determination:

Having regard to the foregoing, the proposed new Fáilte Ireland Facility for Water Based Activities and Refurbishment of Existing Public Toilet Facilities at Killiney DART Station/ Beach Car Park, Station Road, Killiney, Co. Dublin, on the basis of objective information and in view of best scientific knowledge and applying the precautionary principle, for the reasons set out above and in the AASR, it has been concluded that the

proposed development individually or in combination with other plans or projects¹, without relying on any mitigation measures, will not have a significant effect on any European Sites, in view of the sites' conservation objectives, and that there is no reasonable scientific doubt in relation to this conclusion.

Consequently, a Stage Two of the AA and a Natura Impact Statement (NIS) is not required.

The proposed new Fáilte Ireland Facility for Water Based Activities and Refurbishment of Existing Public Toilet Facilities at Killiney DART Station/ Beach Car Park, Station Road, Killiney, Co. Dublin is being promoted by the Tourism Section of the of Planning, Economic Development, Harbour & Property Management of the DLR Planning and Economic Development Department in Dún Laoghaire-Rathdown County Council.

This Appropriate Assessment Screening Determination in respect of the proposed new Fáilte Ireland Facility for Water Based Activities and Refurbishment of Existing Public Toilet Facilities at Killiney DART Station/ Beach Car Park, Station Road, Killiney, Co. Dublin has been made by Miguel Sarabia, Acting Senior Planner, Planning Department to to apply appropriate functional separation in the carrying out of a Screening Determination for Appropriate Assessment.
