

Reduced corner radii for traffic calming and to improve pedestrian crossing

e-car charging point

Footpath widened to reduce carriageway width to 6m. Existing footpath broken out and redone in concrete to match the material of the new footpath extension

Size of area to be broken out and re-leveled.

New raised table and zebra crossing

The level of the vehicle access ramp would be raised and the level of the footpath lowered to eliminate the level drop and provide better pedestrian and vision & mobility impaired access at this point. The existing railing would be removed and replaced with a wall and planter box. Right of way maintained.

Two parking spaces removed and replaced by one parallel parking space to create a safe continuous pedestrian route through village.

Existing public space enlarged and enhanced by removing parking spaces. New planter boxes placed on carriageway edge to delineate the space

New zebra crossing with give/take arrangement for cars entering the village to reduce vehicle speeds

LEGEND:

- Existing Carriageway
- Existing Coloured Surfacing Carriageway
- Proposed Extension of Footpaths and Public Realm
- Existing Footpath
- Existing Raised Planter Bed
- Proposed Raised Planter Bed
- Proposed Raised Table
- Temporary Seating Area
- Existing Tree
